March 2021

Dear Parents/Carers

**8<sup>th</sup> MARCH 2021 – RE-OPENING OF DELAPRE PRIMARY SCHOOL**

I hope this note finds you all safe and well. We are very much looking forward to welcoming back all our children next week. Well done to all of you that have taken part in the home learning over the last few weeks, which we understand was not without challenges at times.

Overall, our systems and procedures, for the return to school, will be similar to that of September; with some adaptations that are noted on the attached information. Please note that all adults are now required to wear a face covering (health conditions allowing) on entering the school site (further details on the attached).

One thing that is definitely the same is that we still require the support of all our families in order to make our full opening arrangements a success, especially with the staggered drop off and pick up times.

Thank you in advance from all of us at Delapre Primary School.

**Kind Regards**  
**Senior Leadership Team**
