

30th September 2019

Dear Parent/Guardian

RECYCLING INITIATIVE

As a school, we have just signed up to a company called Terracycle, whose aim is to recycle products that cannot be taken in the weekly council bins, making them into objects for sale eg. shoes from crisp packets. As an eco-minded school, we are now collecting crisp packets and, if we manage to collect 8kg, we can send them off for recycling, as well as earn £16 for the school.

We know that you all work hard to support our Healthy Eating Programme, but we are aware that, as part of a balanced lunch, children are often provided with crisps.

As a result of this, our School Council has agreed to help out by collecting all crisp packets from class lunch boxes and making posters to advertise our new scheme around the school.

We would also like to ask you, as parents, to send in any crisp packets that you eat outside of school, of any brand including multi pack bags. Classes will collect them and there may be a small prize for the most collected at the end of the school terms.

You can find out more about the scheme here:
<https://www.terracycle.com/en-GB/brigades/crisppacket>

Please note we do **NOT** want:

- Popcorn bags
- Crisp tubes
- Pretzel bags
- Meat snack bags

All money collected will go towards our MUGA fund and we have the added bonus of being able to save our planet from some unnecessary plastic.

Thank you for your help in helping us be more environmentally friendly.

Yours sincerely

A. Clayton
