

2nd October 2020

Dear Parent/Carer

ACCESS TO TECHNOLOGY IN THE HOME

At Delapre Primary School, we have been looking into how we can best provide remote learning for our pupils in the event of a lockdown, or a class having to isolate.

After much consideration, we have decided to use 'Microsoft Teams' to provide work and support our pupils in their learning, whilst they are at home. Your child has login details for 'Teams' as part of our whole school subscription.

With this in mind, we need to know what access your child would have to this online platform.

Please tick the relevant box below, to indicate which device(s) your child would have access to if they had to work at home, and add your child's name and class, as indicated:

PC with access to the internet

Tablet with access to the internet

Other mobile device with access to the internet (e.g smart phone) –

Please advise what this device is: _____

No electrical devices at home

Child's name (Capital letters) _____ Class _____

Please return this completed form to your child's teacher by Friday 9th October 2020.

Yours faithfully

T Fisher
Deputy Headteacher
